

①

Roll A in to
a cylinder

②

The engine

Fold B3 - and roll it
in to a tube with the
black inside

Wrap B4 and B5
around B3

③

Roll part B1 to cylinder.
Print in the inside
- gluetab on the outside.

Fold down the
gluetabs at
the top.

Glue part B2 in to
part B1 with the
printed side down.

Glue the engine
inside B1 to B2.

Glue the completed
enginesection in to
the rear end of A.

Make sure, that it fits very
precise in to part A

③

The fins

Score along the red
lines, cut out and then
fold the glue tab backwards.

Ad glue here on
the back of the
part.

Then fold in to
a flat delta fin.

Then gently press the fin into shape.
Use template G as guidance.

④

⑤

Black section

F2

F3

F1

Start with fin "F3".
Glue the fins to the
body using the light
green guidelines.
